

Ticket punch plier

Ticket-punch pliers are special pliers to validate tickets, cancel a voucher or mark similar products like identity card, cheque card, badge and so on. Laminated identity cards can be validated with our pliers as well.

Our hand ticket punches are heavy nickel plated pliers with a high durability. The steel die made with extreme accuracy is of hardened steel fits perfectly with the hard steel pivot pin for clear cuttings. An easy action spring opens the plier again after every use.

In our range, you will find 6 different models with different throat depth ranging from a maximum of 25 to 75 mm. Our standard pliers are supplied with a round hole in 3 mm diameter, 2, 4 and 5 mm are also available off-the-shelf. Beside the standardized round hole, we offer a large range of punch styles from stock, even a larger number of styles (more than 1.000) are available on request.

Hole punch plier Mod. 10/115

Our ticket punch 10/115 is the smallest high-quality hole punch in our range. This punch is most suitable for the validation of badges (fire extinguisher, vehicle inspection stickers), tickets, identity cards and similar articles.

A throat depth of 35 mm is sufficient for most applications.

Our ticket punch 10/115 is available off-the-shelf with 2, 3, 4 and 5 mm diameter as well as with various punch styles. Please find all available punch styles below.

Product details:

Pattern notcher plier

Pattern notcher

Our pattern notchers are small and effective tools to mark and validate plastic cards, cheque cards, credit cards, bonus cards and many more. In contrast to our ticket punch pliers, the pattern is punched directly on the edge of the card. Even plastic cards can be invalidated easily.

These pliers are the only hand held pliers suitable to validate plastic cheque cards or ID-cards.

Our pattern notch cutters are available in 3 different sizes and 12 patterns.

Ticket punch for steel bands

Ticket punch for steel stepping

Standard ticket punches are too small to punch a hole in steel or plastic strappings which are commonly used in transport and packaging. For this application you will need to use our punch plier for steel bands.

With this plier you can easily punch holes in various sizes in steel bands and plastic bands (Strapex).
